

With over 30 years of combined experience in landscape architecture and project management, the professional and administrative staff of Remenschneider Associates undertake a broad range of projects, solving design constraints and creating unique design solutions for commercial, institutional and residential clients. The firm continually strives to uphold a high level of professional service by understanding client's needs, maintaining their schedule and honoring their budget.

Kenneth J. Remenschneider, RLA, ASLA *President*

Ken founded Remenschneider Associates, Inc. in 1989 to fulfill his desire to influence land development and site improvements in an environmentally responsible fashion while demonstrating the opportunities inherent within his clients' properties. Since then, the firm's 'opportunity planning' has become a signature service of his landscape architectural firm. His guidance ensures that staff will perform their work with respect and concern for clients' needs and the environment in which we live. Ken has a Bachelor's degree in Landscape Architecture and Environmental Design from Ball State University, is a member of ASLA and is a Registered Landscape Architect in the state of Indiana. Ken remains active in the "green" community with memberships with the Rails to Trails Conservancy, Indiana Native Plant and Wildflower Society, Chicago Botanic Garden and the United States Green Building Council. Ken authored the book, Indianapolis Landscape Architecture, has headed numerous zoning and development presentations at public zoning hearings and was project manager for the consolidation of Indiana State Offices into the current 12 city block Indiana Government Center.

Brandon M. Schreeg, ASLA *Project manager*

Brandon's contributions to the Remenschneider Associates design team include creative capabilities and exemplary project management skills with a focus on land planning and community development. His leadership on multidisciplinary projects serves to produce creative, efficient, and responsible design solutions. Brandon's hardworking attitude and organizational skills allow his teams to meet deadlines while producing innovative design solutions; supporting his desire to exceed our clients' expectations. Brandon holds a Bachelor of Science in Landscape Architecture and minor in Art and Design from Purdue University. He is a member of American Society of Landscape Architects, Indiana Chapter ASLA, Builder's Association of Greater Indianapolis and Sigma Lambda Alpha National Honor Society for Landscape Architects. He has directed many beautification projects within the community and hosted presentations of projects before various government and municipal agencies which include common councils, plan commissions, zoning variance committees, and permitting officials.
